Re: Dialogue on Planning Assumptions

Dear Stephen,

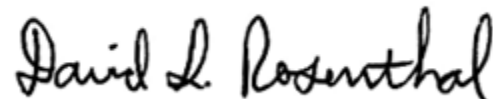

Attached please find ExxonMobil's report on "Energy and Climate."

This follows our discussions in December and February, and your withdrawal of the shareholder proposal on planning assumptions on behalf of the proponents.

We are at the same time posting the report on ExxonMobil's website.

We appreciate the opportunity to engage with you and other groups on the important issues of energy and the risk of climate change. We value the insights we have gained and hope our dialogue has aided in your understanding of our views on these topics. We look forward to a continued and constructive dialogue.

Sincerely,

/ral
